

Athul sidharthan

Software Engineer

Motivated software engineer with expertise in front-end technologies like HTML, CSS, JavaScript, Bootstrap and back-end technologies such as Django and SQL. Proficient in programming languages C and Python. Skilled in creating user-friendly interfaces and familiar with GUI development. Passionate individual with a drive for innovation and a strong desire to learn. Excited to apply knowledge in both front-end and back-end development to build impactful software. Ready to contribute to the success of dynamic projects as a fresher in the industry.
